

List Of Services

About Us

NDE Offshore is a Swedish offshore and onshore service provider. The company was founded in 2005 and has carried out projects in Sweden, Europe, and the Middle East. NDE Offshore's corporate headquarters is in Dubai (United Arab Emirates). We have operational bases in Sweden, in Saudi Arabia, and storage & service facilities in Malta.

NDE Offshore has a solid track record of statutory inspections above and below the water, installation, and retrofit works, periodic maintenance, construction support, and surveys.

We have completed combined offshore and onshore campaigns where we carry out topside and subsea work simultaneously.

Our main business areas are the Oil & Gas industry. Our clients include EPC contractors, international and local operators, engineering companies, shipyards, onshore and offshore drilling contractors.

We provide turnkey subsea construction solutions, including:

- **Diving**
- **ROV**
- **Survey Services**
- **Inspection Maintenance and Repair**
- **Engineering**
- **Topside Rope Access Services**
- **MPSV/ DSV Charter & Management**

Quality Assurance

IRATA

NDE Offshore is a member of IRATA, International Rope Access Trade Association to perform:

- Inspection
- Construction
- Corrosion Protection
- Jacket Construction
- Installations
- Steel Works
- NDT Works & Safety

IMCA

NDE Offshore is a permanent member of IMCA for Europe & Africa as well as the Middle East & India for the following;

- Diving
- Offshore Survey
- Remote Systems & ROV & Safety

DNV-GL

NDE Offshore is certified by DNV-GL according to

ISO 9001 (Quality)
ISO 14001 (Environment)
ISO 45001 (Occupational Health & Safety)

ABS

NDE Offshore is certified by ABS for the following services:

- In-water survey
- Non-destructive inspection
- Remote inspection techniques as an alternative means for close-up survey of ships and mobile offshore units

Survey

- Multibeam Echo Sounder Survey (MBES)
- Side Scan Sonar Survey (SSS)
- Seabed Survey
- Geophysical Survey
- Geotechnical Survey
- Route and Site Survey
- Pre and Post-Lay Survey
- Offshore and Nearshore Survey
- Photogrammetry Survey

Subsea Construction

- Cable Installation
- Flexible Hoses Installation
- Subsea Infrastructure
- SURF
- SPM Installation
- Anchor Chain replacement
- SPM'S & PLEM'S installation
- Refurbishment / Upgrade of existing calm buoy systems
- Asset integrity inspection
- Calm buoy terminal services
- Inspection & I
- Life extension of existing CALM BUOY systems
- Jet Trenching
- Mechanical Cutting
- Ploughing
- Air Lifting
- Offshore Geotechnical Services

AIM/IMR

- Qualitative risk analysis to identify anomalies on the inspected platforms/subsea structures
- Subsea construction maintenance
- ROV Operation
- Subsea NDT
- Repair & Maintenance Commissioning

Topside Rope Access

- Drilling and hoisting equipment inspection
- Offshore container inspection
- Lifting gear inspection
- Drilling Structure Construction
- Non-destruction testing
- Drop object prevention survey
- Offshore crane inspection

Platform Life Extension

- Platform life extension
- Repair & Maintenance

Decommissioning

- Decommissioning Engineering
- Structures
- Pipelines and subsea assets removal
- Pipeline burial

MPSV/ DSV Charter & Management

- Identifying suitable vessels within the market.
- Assessing project-specific requirements, including deck space, lifting capability, accommodation, maneuverability, and dynamic positioning.

Engineering and Project Management:

- Transportation and Installation Engineering
- Procedures and Drawings
- Flexible product lay analysis
- Decommissioning engineering
- Project plans and scheduling
- AutoCAD 3D & 2D drawing and modeling
- FEA of structure
- Load test & lifting calculation and planning
- Hydraulic Calculation
- Metrology calculation

Diving

- Inspection, repair & maintenance (IRM) of infrastructures, and installation support.
- NDT Inspection of offshore structures and pipelines
- Spool piece installations and tie-ins
- Pipeline refurbishment and repairs
- Subsea cathodic protection
- Installation of supports to pipelines, flow lines, and cable tie-ins
- Subsea intervention in assistance of installation of platforms, SBMs, and FPSOs
- Salvage works

ROV

- Assistance for Construction works
- Bathymetry Survey
- Drilling Support
- Emergency response
- NDT Survey
- Pipelay & cables monitoring
- Pipeline leak detection
- Seabed inspection
- Underwater inspection campaigns
